Russian Writers and the Power of the Pen

Russian autocrats from towering Tsar Peter I to terrifying Stalin to sclerotic Brezhnev to postmodern tough-guy Putin have ruled their nation through fear, brutality, disregard for basic human rights, and the suppression of individual liberties. Yet there have always been writers in Russia who were bold enough to wield the power of free thought and free speech in the face of absolute political might, and their work remains after the tyrants are gone to reframe the past for future generations. Ultimately, it is not the Putins of the world, but the Poets who have the last word.

David M. Bethea  Vilas Research Professor  of Russian Literature at the University of Wisconsin-Madison; Professor Emeritus of Russian Studies at Oxford University

Tuesday, April 1  5 P.M.
